About Your Score Report

Scores for other assessments taken on this date are in separate score reports.

See *Understanding Your GACE® Scores* for detailed information about how to interpret and most effectively use the information presented in this score report. Information about the assessment can be found in the Study Companion* and the Test at a Glance (TAAG)* for this subject. Both are available as free downloads on the GACE website at www.gace.ets.org.

Your score report shows information about passing scores at two levels: an induction passing score and a professional passing score. **At this time, examinees passing a GACE assessment at the induction level or the professional level have met the Georgia Special Requirement to pass the content knowledge assessment(s) appropriate to the field of certification.** See *Understanding Your GACE® Scores* for additional information.

Scores are reported to the Georgia Professional Standards Commission (GaPSC), the program provider that authorized you to take this assessment, and any other score recipients you selected. This score report will be accessible to you for 50 years from the test date. Please save or print a copy of this PDF for your records.

*Not available for the American Sign Language Proficiency Interview (ASLPI)

Your Highest Score to Date*

Code - Test Name	Status	Test Date	Scaled Score Range	Induction Passing Score	Professional Passing Score	Your Scaled Score
034 - History Test I	Passed Professional	01/23/2025	(100-300)	220	250	264
035 - History Test II	Passed Professional	01/23/2025	(100-300)	220	250	259

* Inclusive of tests taken on or after October 1, 2013. If you tested before October 1, 2013, contact Evaluation Systems, Pearson.

Note: If you have questions, contact ETS Customer Service at 1-855-225-7178.

*This does not include questions that were included for research purposes and are not scored.

**ETS is very committed to ensuring the reliability and validity of each GACE assessment. While the overall score reflects an accurate measure of the test taker's performance on the assessment, there are cautions when using the subarea and objective level information to make judgments. Subarea and objective level information indicates the number of test questions answered correctly for relatively small subsets of the questions. Because they are based on small numbers of questions, subarea and objective scores are less reliable than the official scaled scores, which are based on the full set of questions. Furthermore, the questions in a subarea or objective may vary in difficulty from one test form to another. Therefore, while scaled scores on different forms of the same subtest of an assessment are comparable, the subarea and objective scores of individuals who have taken different forms of the test are not necessarily comparable. For these reasons, subarea and objective scores should not be considered a precise reflection of a candidate's level of knowledge in that subarea or objective and ETS recommends that subarea and objective information not be used to inform any decisions without careful consideration of the limited nature of the data.
